

there's language indicating the...reflecting the enactment of LB 212 that's over on Select File which changes some of the funding for the Fire Marshal's office together with an increase in the premium tax for fire insurance companies and this insures that that additional fund will result in a reduction or replacement of what is currently general fund money. The State Electrical Board also has specific language that indicates that their expenditures will not exceed the availability of funds and to insure that no general fund money is requested in this area. The Department of Motor Vehicles on Page 9 is the one dealing with the Department of Motor Vehicles and the study on license plates. Included in this language is the study that they will provide assistance to the appropriate legislative committee depending who the Exec Board assigns a study to. The study includes alternatives such as by Senator Simon, one plate per motor vehicle, consolidating the number of plates, license plates classification, lifetime plates, and a number of other possibilities that ought to be reviewed. The top of Page 10, there's language indicating that the general fund money that's gone to highway safety program is in there because of a federal match requirement and is to be used only for that purpose, and if the federal funds do not come about then the general fund money will not be expended. Further down on Page 10 is language similar to what we've had last year dealing with the Department of Public Institutions in the transfer of patients, or individuals, from Beatrice, the community facilities, but also directives insuring that the Beatrice Developmental Center will maintain its eligibility for Title 19 payments which runs some six million...almost six million dollars per year now. There's language on Page 11, Program 365, is a final year for general fund appropriation which occur because of the passage of LB 794 in 1976. This was a transfer of staff from the state to the county, and this will complete the appropriation that was required by virtue of that bill. There is indication that the 150,000 general fund support for Douglas County Hospital will be continued. Also there's a number of areas in here and here is one, in those areas where there are substantial state funds used, mental retardation regions, health regions, the county welfare offices, there's language in the bill indicated in all those cases that salary adjustment should be the same as that of state employees at the seven percent level. There is, at the bottom of Page 12, the Department of Public Welfare, there is language directed to keep us informed of all correspondence and activity dealing with the medical management information system which is currently being established with a fifty-fifty percent match...fifty federal, fifty percent
